Re: Official Information Act request – MIT Data

I refer to your Official Information Act request dated 22 July 2019 requesting the following information:

For each of the quarters beginning Q3 2017 through to Q3 2019 (inclusive of both) could you please provide:

Quarterly totals, separated by modality, of DHB expenditure on outsourcing examinations in the following imaging modalities: General X-ray/plain films; CT; MRI; Angiography and Cath Lab; Mammography; and

Quarterly total numbers of outsourced examinations in the following imaging modalities: General X-ray/plain films; CT; MRI; Angiography and Cath Lab; Mammography.

The expenditure and total numbers for MRIs and Mammography are included in the attached workbook on the spread sheet titled "Outsourcing Cost-Volume". We do not regularly outsource modalities other than MRIs, however, this spread sheet includes the on-off mammography outsourcing which occurred during a period of machine upgrade.

Budgeted FTE and Actual FTE figures at the last day of each quarter (but for the present quarter the most up-to-date data available at the time of your response to this request) separated out by the following: General X-ray/plain films; CT; MRI; Nuclear Medicine; Angiography and Cath Lab; Mammography; RIS/PACS; Radiology Assistants.

This is included in the second spread sheet of the attached workbook titled "FTE".

Quarterly totals of 'Weekend Work Penalty Clause' payments made pursuant to Clause 8.0 of the APEX & DHBs MRT MECA. If the data is available, please provide anonymised totals for individual employees.

There have been no "Weekend Work Penalty Clause" payments made during the time specified.

Quarterly expenditure on overtime payments made under Clause 7.5 of the MRT MECA due to employees not being provided with an adequate continuous break.

The information cannot be made available without substantial collation or research and therefore you requested is refused under s 18(f).

Complete data for the below table for in-patients:

| | | | | |

The following details on all current vacancies/advertised positions for all employees whose work falls within the coverage clause of the MRT MECA – i.e. all MIT, MRI, etc. roles.

- Position title.
- FTE of the role, broken down by modality where applicable.
- How many weeks the role has gone unfilled/how long the role has been advertised for, whichever is longer.

We have very few vacancies across the Radiology department and no active recruitment with the exception of:

| Position Title | FTE of role | Weeks the role has gone unfilled/how long the role has been advertised for |
|---|-------------|--|
| MRI – this will be responded to in a separate OIA | | |
| SSH MRT | 2.1 | We are not actively recruiting as we would like to be able to offer these 2 FTE to new graduates when they qualify in November |

I trust this information answers your questions.

You are entitled to seek a review of the response by the Ombudsman under section 28(3) of the Official Information Act. Information about how to make a complaint is available at www.ombudsman.parliament.nz or freephone 0800 802 602.

Please note that this response, or an edited version of this response, may be published on the Auckland DHB website.

Yours faithfully

Ailsa Claire, OBE
Chief Executive
