Shorter waits for cancer treatment

The target is all patients, ready-for-treatment, wait less than four weeks for radiotherapy or chemotherapy. Six regional cancer centre DHBs provide radiation oncology services. These centres are in Auckland, Hamilton, Palmerston North, Wellington, Christchurch and Dunedin. Medical oncology services are provided by the majority of DHBs.

Increased Immunisation

The national immunisation target is 90 percent of eight-month-olds have their primary course of immunisation at six weeks, three months and five months on time by July 2014 and 95 percent by December 2014. This quarterly progress result includes children who turned eight-months between January and March 2014 and who were fully immunised at that stage.
