Health Excellence Awards Finalists 2014 announced

Auckland District Health Board (DHB) is pleased to announce the finalists in the five categories of its Health Excellence Awards 2014.

The annual award ceremony celebrates the work of our people who are developing innovative ways of delivering healthcare services, or undertaking cutting edge research that benefits the health and wellbeing of both staff and the patients we care for.

“The awards are a great opportunity for us to celebrate and share new ideas to work smarter, improve systems and process, offer better clinical care and take a fresh look at workplace design and flow,” says Auckland DHB’s chief executive, Ailsa Claire.

This year the awards introduced two new categories – Community Health and Wellbeing and Excellence in the Workplace – to highlight and include the valuable work of the DHB’s primary care partners and community health organisations. It also wanted to place a spotlight on innovation in workplace design and wellness across the organisation.

“The examples of innovation and improvement shown in the applications this year were outstanding. It was a really tough job for the judges. I’m looking forward to congratulating our finalists and winners at the Awards event next month,” adds Ailsa.

The winners of the five categories, as well as the supreme Chief Executive’s Award, will be announced at an awards ceremony in December at the Auckland War Memorial Museum Events Centre.

Main sponsors for this year’s awards include A+ Trust, Starship Foundation, Spark and Cisco Systems, Buzz Channel and Auckland Academic Health Alliance.
